Education

Lebanese International University (LIU)

Bachelor's Degree in Computer Science – *Expected Graduation: 2026*

- Current GPA: Above 3.7
-

Experience

Mobile App Intern – XpertBot

January 2025 – July 2025

- Developed a cross-platform pharmacy application using Flutter and Dart.
 - Built dynamic UI screens with responsive design principles using MediaQuery and LayoutBuilder.
 - Implemented navigation and state management using GetX (Controllers, Bindings, Routes).
 - Created reusable models and components for structured data (e.g., Medicine, Pharmacy, User).
 - Integrated local assets and optimized image display in the UI.
 - Followed clean architecture and modular coding practices.
 - Used Git for version control and collaborated on project tasks in sprints.
 - Ensured cross-platform compatibility and handled testing on Android and Windows environments.
-

Certificates

- Certificate of Completion – XpertBot Academy (*August 2025*)

Project: Pharmacies Zone – https://github.com/Georges266/pharmacies_zone-.git

Skills: Flutter, Git, Version Control, Clean Architecture
